{{FirstName}},

Now... let's look at some BASICS of the ASEA business. Succeeding in business with ASEA will require some L.U.C.K.

L.U.C.K. = Laboring Under Correct Knowledge

The BASICS for your business have already been created and are working successfully today. As with the can of orange juice, it says "just add (good) water." In the case of ASEA, "just add (good) people." We have added "good" for obvious emphasis. In our business, you get to choose who you work with, so choose "good" people.

You see, the information surrounding ASEA is so compelling that if you simply put it in front of people, you will get the desired results. That is, people using your product and people in your business.

Resources

Your Team ASEA website – yourusername.teamasea.com OR www.teamasea.com/yourusername. Both will work.

- Your site has overviews of ASEA's superb management team.
- Two terrific videos for your prospects'. One on the landing page and one on the product page.
- Info on product, opportunity, a page for customer purchases, and a sign up page for new Associates.
